

MyPDF — End User License Agreement (EULA)

Version 2, August 2026

<https://github.com/HattaTechnology/MyPDF>

END USER LICENSE AGREEMENT

Copyright © 2026, Hatta Technology

The following agreement regarding MyPDF — referred to as “software” — is made between Hatta Technology — referred to as “licensor” — and anyone who is installing, accessing or in any other way using the software — referred to as “user”.

1. The author and holder of the copyright of the software is Hatta Technology. The licensor and as such issuer of the license and bearer of the worldwide exclusive usage rights including the rights to distribute and make the software available to the public in any form is Hatta Technology.
2. The software is distributed as free to use. This means that anyone may use the software at no charge.
3. The software may be freely distributed, with exceptions noted below, provided the distribution package is not modified in any way.
 - a. Nobody may distribute separate parts of the package, with the exception of the components, without written permission.
 - b. The software may not be distributed inside of any other software package without written permission. The software must remain in the original unmodified installation file for download without any barrier and conditions to the user such as collecting fees for the download or making the download conditional on the user giving his contact data.
 - c. The unmodified installation file of MyPDF must be provided pure and unpaired. Any bundling is interdicted. In particular the use of any install or download software which is providing any kind of download bundles is prohibited unless granted by author in written form.
 - d. In case of violation of the precedent conditions the allowance lapses immediately and automatically.
4. The software is distributed “as is”. No warranty of any kind is expressed or implied. You use at your own risk. Neither the author, the licensor nor the agents of the licensor will be liable for data loss, damages, loss of profits or any other kind of loss while using or misusing this software.
5. You may not rent, lease, sell, modify, decompile, disassemble or reverse engineer any subset of the software. Any such unauthorized use shall result in immediate and automatic termination of this license and may result in criminal and/or civil prosecution. This clause applies only to the parts of the software authored by the licensor, and is subject to Clause 6.4 below — it does not restrict any right granted to you by the license of a third-party component.

6. THIRD-PARTY SOFTWARE NOTICES

6.1 The software incorporates or is built with the third-party components listed below. Each component remains the property of its respective copyright holders and is governed by its own license. The versions stated are those used to produce this release; consult the linked pages for the authoritative and current license text.

6.2 Components distributed with the software (runtime):

- **Python 3**

License: PSF License Agreement (BSD-style, permissive)

Full text: <https://docs.python.org/3/license.html>

- **PyQt6 6.11.0**

License: GNU General Public License v3 (GPL-3.0-only), or a commercial license from Riverbank Computing

Full text: <https://www.riverbankcomputing.com/commercial/license-faq>

- **Qt 6 (supplied as PyQt6-Qt6) 6.11.1**

License: GNU Lesser General Public License v3 (LGPL-3.0); some modules are GPL-3.0 or commercial

Full text: <https://doc.qt.io/qt-6/licensing.html>

- **PyQt6-sip 13.11.1**

License: BSD 2-Clause License (permissive)

Full text: <https://github.com/Python-SIP/sip/blob/main/LICENSE>

- **PyMuPDF (imported as fitz) 1.27.1**

License: GNU Affero General Public License v3 (AGPL-3.0), or a commercial license from Artifex Software

Full text: <https://pymupdf.readthedocs.io/en/latest/about.html#license-and-copyright>

- **MuPDF (C library inside PyMuPDF) 1.27.1**

License: GNU Affero General Public License v3 (AGPL-3.0), or a commercial license from Artifex Software

Full text: <https://mupdf.com/licensing/index.html>

- **PyInstaller bootloader 6.19.0**

License: GPL-2.0-or-later WITH a special exception that permits the resulting bundled application to be distributed under terms of your choosing

Full text: <https://pyinstaller.org/en/stable/license.html>

6.3 Components used only to build the software and NOT distributed with it:

- **Pillow 12.1.1**

License: MIT-CMU (HPND, permissive). Used at build time only, to convert the application icon.

6.4 Precedence and copyleft obligations.

Nothing in this Agreement — and in particular nothing in Clause 3 or Clause 5 — is intended to limit, and shall not be read as limiting, any right granted to you by the license of a third-party component listed above. Where a term of this Agreement conflicts with the license of such a component, that component's license prevails in respect of that component.

Qt 6 is used under the GNU LGPL v3 and is dynamically linked. In accordance with LGPL v3, you may obtain the corresponding source code for Qt from the link above, and you may modify it and relink it with the software for your own use, including reverse engineering to the extent necessary to debug such modifications.

PyQt6 is licensed under the GPL v3, and PyMuPDF and MuPDF under the AGPL v3. These are strong copyleft licenses: unless the licensor holds a valid commercial license from Riverbank Computing (for PyQt) and from Artifex Software (for PyMuPDF/MuPDF), a binary distribution that includes them must be conveyed under the terms of those licenses, which include making the corresponding source code available to recipients. Users who require terms other than the above should contact the licensor.

A copy of the GNU GPL v3, LGPL v3 and AGPL v3 accompanies this software; the authoritative texts are also published at [gnu.org/licenses](https://www.gnu.org/licenses/).

7. This Agreement shall be governed by and construed in accordance with the laws of Malaysia, without regard to its conflict-of-laws provisions. Any legal dispute arising out of or in connection with this Agreement shall be subject to the exclusive jurisdiction of the courts of Malaysia.
8. If any provision of this Agreement is held to be invalid, illegal, or unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect. The invalid provision shall be replaced with a valid provision that most closely reflects the original intent.
9. Installing and using the software signifies acceptance of these terms and conditions of the license. If you do not agree with the terms of this license, you must remove all software files from your storage devices and cease to use

the software.
